

KEEP THE Change

Our newest free service lets you build your savings by having your debit card purchases rounded up to the nearest dollar, and transferring the change into a savings account.

For Example, spend \$4.70 and \$.30 will be transferred to your savings. When the purchase amount is a whole dollar, the system rounds up the amount by \$1. The purchase will appear as two transactions on your history.

Call, text, come by, or email us about enrolling in this new, FREE service!
